# THINK !!

## WHICH WAY WOULD THE KAISER LIKE YOU TO VOTE ?

Answer—

## THE KAISER WOULD LIKE YOU TO VOTE YES

### WHY ?

Because "Yes" at once pulls Australia down to the level of Germany.

Australia wants population. Five millions cannot hold a continent. We must aim at doubling or quadrupling our population as soon as possible. Australia must have good Europeans from every country in Europe if she is to develop her manifold magnificent resources—and incidentally keep the Asiatic out.

But Europeans who leave the old world to escape bad old-world conditions will not come here if we have Conscription. Conscription always has been a potent cause of emigration from Europe.

They will choose the United States, Canada or South Africa—countries which Mr. Hughes knows well will not permit Conscription to send soldiers over the seas.

Australia's magnificent Volunteer Army of 300,000 free men includes descendants and natives of every European country, including Germany. Proportionately it is a contribution equal to three millions from the United Kingdom or ten millions from Russia—and recruits are still coming in. What a magnificent advertisement for a country on the outposts of civilisation, twelve thousand miles from the centre of the conflict.

Voluntarism has not been a failure. It has been a gigantic success.

Don't besmirch Australia and Australian heroes by voting "Yes."

## Be not like dumb driven cattle—Vote NO
